

Pacific Bulb Society Bulb and Seed Exchange (BX) 101-200

Details for items listed here have been truncated due to space constraints. For more information, visit the PBS archives (<http://www.pacificbulbsociety.org/list.php>).

The following are statistical analyses of BX101-200. Total item = 1830, average item per BX = 18.3, average items per month = 42.56, average BX's per month = 2.3, total items for Spring = 235, total items for Summer = 563, total items for Fall = 774, total items for winter = 288.

BX 101 (Sept. 4, 2005)

>From Mark Mazer:

1. Small bulbs of *Nerine bowdenii*
2. Bulbs of *Cyrtanthus helictus*
3. Rhizomes of *Trillium discolor*
4. Cormlets of *Ixia flexuosa*
5. Tubers of *Arum cyrenaicum*
6. Cormlets of *Ixia maculata*
7. Corms of *Sparaxis tricolor*
8. Tubers of *Arum purpureospathum*

>From Leo Martin:

9. Seed of *Lachenalia contaminata*

>From Mark Wilcox:

10. Seed of *Rhodophiala chilense*

BX 102 (Sept. 22, 2005)

>From Arnold Trachtenberg:

1. Bulbs of *Nerine bowdenii*
2. Bulbils of *Lilium sulphureum*

>From Lee Poulsen:

3. Seed of *Hippeastrum aulicum*

>From Tsuh Yang Chen:

4. Tubers of *Sinningia aghensis*

>From Dennis Kramb:

5. Seed of *Iris odaesanensis*
6. Seed of *Nelumbo lutea*

>From Lyn Makela:

7. Bulbs of *Tulbaghia cominsii*
8. Tubers of *Sinningia tubiflora*
9. Bulbs of *Freesia refracta alba* (syn. *F. alba*)

SEED:

10. *Chasmanthe floribunda*
11. *Calydorea pallens*
12. *Dietes iridioides* 'Amatola', dwarf

13. *Freesia muiirii* (syn *F. leichtlinii*)
14. *Habranthus robustus*
15. *Zephyranthes reginae* 'Valles yellow'
16. *Zephyranthes primulina*
17. *Zephyranthes commersoniana* (syn. *Z. mesochloa*)

BULBLETS:

18. *Oxalis purpurea alba*
19. *Oxalis purpurea* 'Garnet'
20. *Oxalis obtusa*, rose

>From Mark Mazer:

21. Bulblets of *Cyanella hyacinthoides*
22. Bulblets of *Lachenalia juncifolia*
23. Seed of *Cypella plumbosa plantensis* (syn. *C. coelestis*)
24. Tubers of *Arisaema rhombiforme*

BX 103 (Sept. 28, 2005)

>From Mary Sue Ittner:

BULBLETS/CORMLETS:

1. *Brodiaea pallida* cormlets
2. California native cormlets, probably *Dichelostemma capitatum*
3. *Calochortus uniflorus*
4. *Lachenalia carnosa*
5. *Lachenalia pallida*
6. *Lachenalia pustulata*
7. *Lachenalia* sp. from BX seed-pustulata?
8. *Lachenalia unicolor*
9. *Leucocoryne purpurea* cormlets
10. *Oxalis commutata* -- Fall
11. *Oxalis depressa* MV4871
12. *Oxalis incarnata*
13. *Oxalis luteola* MV 5667
14. *Oxalis obtusa* pink
15. *Oxalis obtusa* MV4719d -- coppery pink
16. *Oxalis obtusa* MV 5516, yellow
17. *Oxalis obtusa* MV 7087
18. *Oxalis obtusa* peach --
19. *Oxalis* (South Africa) Uli 54 --
20. *Oxalis* sp. (South America) from Uli,

- magnifica? - Summer growing
21. *Oxalis* sp. (lost tag)
 22. *Romulea obscura substestacea*
cormlets
 23. *Gladiolus ecklonii* -- Summer growing

>From Mark Mazer:

23. Small bulbs of *Lilium formosanum*

>From Jerry Flintoff:

24. Bulbs of *Colchicum speciosum* 'Album'
25. Bulbs of *Colchicum speciosum*
'Atrorubens'

BX 104 (Oct. 6, 2005)

>From Marcelle Sheppard via Joe Shaw:

1. Seed of *Crinum macowanii*

>From Merrill Johnson (of the Gamble Gardens in Palo Alto, CA):

SEED:

2. *Alstroemeria* sp. An old hybrid (~50 years) that is historic to the Elizabeth F. Gamble Garden in Palo Alto, CA.
3. *Freesia laxa*
4. *Dierama pulcherrimum*
5. *Cypella coelestis*
6. *Allium senescens* subsp. *montanum*
var. *glaucum*

>From Mary Sue Ittner:

SEED:

7. *Pasithea caerulea*
8. *Lilium pardalinum* --form called
Giganteum
9. *Calochortus mariposa* hybrids
10. *Albuca circinata*
11. Bulblets of *Oxalis purpurea* 'Garnet'

>From Jerry Flintoff:

12. Seed of *Gagea fibrosa*
13. Seed of *Allium brevicaulis*

>From Gary Meltzer:

14. Seed of *Gloriosa superba*

BX 105 (Oct. 18, 2005)

>From Jane McGary:

BULBS:

1. *Arum dioscoridis*
2. *Bloomeria crocea* ssp. *montana*

3. *Arum concinnum*
4. *Trichopetalum plumosum*
5. *Arum sintenisii*
6. *Colchicum minutum*
7. *Gillesia graminifolia*
8. *Arisarum vulgare* forma typicum
9. *Dichelostemma volubile*
10. *Acis trichophylla* (syn. *Leucojum trichophyllum*)
11. *Fritillaria eastwoodiae*

>From Marie-Paule Opdenakker:

12. Bulbils of an unknown lily (orange, tiger-lily type)

>From Carolyn Craft:

13. Small rhizomes of hybrid bearded iris. Mixed hybrids, mostly labeled.

>From Doug Westfall:

SEED:

14. *Haemanthus coccineus*
15. *Haemanthus hirsutus* PINK
16. *Veltheimia capensis*
17. *Veltheimia* x 'Rosealba' (seed may not produce true 'Rosealba' blooms)

>From Dennis Kramb:

18. Seed of Louisiana iris, mixed cultivars, with heavy influence from *Iris fulva*

>From Mark Mazer:

19. Corms of *Cypella coelestis*

>From Dave Brastow:

20. Seed of *Nomocharis aperta* from plant grown from seed wild-collected by Collector's Nursery

BX 106 (Oct. 30, 2005)

>From Cynthia Mueller:

1. Seed of *Beschorneria septentrionalis*

>From Mark Mazer:

2. Tubers of *Amorphophallus konjac*
3. Small bulbs of *Eucomis autumnalis* ssp. *clavata*
4. Tubers of *Arisaema fargesii*

>From Rogan Roth:

5. Seed of *Moraea hiemalis* ex Bulwer, KwaZulu-Natal

>From Arnold Trachtenberg:

6. Seed of *Lilium regale*
7. Seed of *Lycoris chinensis*
8. Seed of *Lycoris longituba*

>From Joyce Miller:

SMALL BULBS/CORMS

9. South African bulbs including lachenalias
10. *Lachenalia bulbifera*
11. *Lachenalia pallida*
12. *Lachenalia juncifolia*
13. *Lachenalia unicolor*
14. *Lachenalia orthopetala*
15. *Lachenalia contaminata*
16. *Moraea* sp.
17. *Zephyranthes (Cooperia)* sp., yellow with red throat
18. *Tritonia securigera*
19. *Calla* sp.
20. Seed of *Amaryllis belladonna multiflora*, hot pink

BX 107 (Nov. 7, 2005)

>From Alberto Grossi:

1. Seed of *Lilium candidum*
2. Seed of *Tulipa tarda*
3. Seed of *Tulbaghia violacea*
4. Seed of *Amaryllis belladonna*
5. Seed of *Amaryllis belladonna* "Bloemfontein"
6. Seed of *Pancratium maritimum*
7. Bulbils of *Dioscorea bulbifera*
8. Seedlings of *Crinum moorei*

>From Mary Sue Ittner:

BULBS:

9. *Oxalis obtusa* (W)
10. *Oxalis* Uli 69 (sprouted)
11. *Oxalis obtusa* MV6341 (W)
12. *Tritonia* sp. (W)
13. *Tritonia disticha* -- Summer growing
14. *Spiloxene capensis* (W)
15. *Romulea bulbocodium* aff. (W)
16. *Oxalis* sp. (South African, winter growing, not *obtusa*)

SEED:

17. *Cyrtanthus brachyscyphus*

>From Tom Glavich:

18. *Albuca batteriana*
19. *Albuca* sp. Algoa Park (near Cape Town)
20. *Albuca* sp. Nova Ngome Kwazul Natal
21. *Haemanthus albiflos*
22. *Lachenalia aloides*
23. *Lachenalia bachmanii*
24. *Lachenalia mediana*
25. *Lachenalia mutabilis*
26. *Lachenalia orchoides* var. *glacina*
27. *Lachenalia unicolor*
28. *Lachenalia reflexa*
29. *Lachenalia rubida*
30. *Lachenalia splendida*
31. *Massonia pustulata*
32. *Pelargonium echinatum*

BX 108 (Nov. 17, 2005)

>From Hans Joschko:

SEED:

1. *Habranthus martinezii*, ex AGS
2. *Habranthus gracilifolius*, ex AGS
3. *Habranthus robustus*
4. *Habranthus martinezii* (a different clone)
5. *Habranthus gracilifolius* (a different clone)
6. *Habranthus texanus*
7. *Habranthus brachyandrus*
8. *Zephyranthes candida*
9. *Zephyranthes minima*
10. *Zephyranthes primulina*
11. *Tulbaghia violacea*

>From Shirley Meneice:

SEED:

12. *Sisyrinchium bellum*
13. *Sisyrinchium striatum*
14. *Sisyrinchium californicum*
15. *Hippeastrum hybrids*
16. *Anomatheca laxa* (syn. *Freesia laxa*)
17. *Zigadenus fremontii*
18. *Lachenalia pustulata*
19. Seed of an unknown South African bulb - probably an irid; seed looks like *Gladiolus*

>From Mark Wilcox:

20. Seed of *Griffinia aracensis*

>From Angelo Porcelli:

SEED:

21. *Crocus thomasii*
22. *Iris bicaudata*
23. *Arum apulum*

>From Myke Ashley-Cooper:

24. Seed of *Babiana villosa*, maroon, ex Tulbagh, RSA

BX 109 (Dec. 1, 2005)

>From Lee Poulsen:

SEED:

1. *Allium* sp., collected from Eastern Sierras creekbeds at 11,000 ft
2. *Habranthus andersonii*
3. *Manfreda variegata*, 'El Naranjo' form
4. *Baeometra uniflora*
5. *Habranthus tubispathus*, mixed color forms
6. *Lycoris sprengeri*

>From Pat Bender:

7. Seed of *Arisaema taiwanense*

>From Marie-Paule Opdenakker:

8. Tuber-offsets of *Dahlia* hybrid 'Asiatic Night'

>From Arnold Trachtenberg:

9. Tubers of *Colocasia esculenta*

>From Dell Sherk:

10. *Bulblets* (offsets) of unidentified mixed *Cyrtanthus* hybrids

>From Shawn Pollard:

11. Cormlets of an unidentified *Ferraria* sp. that was offered on the PBS BX last year

>From Chuck Schwartz:

12. Bulbs of *Tulipa clusiana* 'Lady Jane'

BX 110 (Dec. 7, 2005)

>From Hamish Sloan:

SEED:

1. *Zephyranthes primulina*
2. *Zephyranthes magnoi*
3. *Zephyranthes* 'Good yellow form'
4. *Zephyranthes reginae*
5. *Zephyranthes mexicana*
6. *Habranthus gracilifolius*

7. *Tulbaghia violacea* (obtained from Chiltern Seeds in 2002 as *T. maritima*)

>From Mary Sue Ittner:

BULB:

8. *Rhodohypoxis baurii* var. *platypetala* -- originally from some BX

SEED:

9. *Agapanthus* -- This is a dark purple
10. *Amaryllis belladonna* hybrids
11. *Brodiaea californica*
12. *Calochortus* -- Mariposa hybrids, open pollinated
13. *Calochortus vestae* -- white, open pollinated
14. *Delphinium nudicaule*
15. *Gladiolus carmineus*
16. *Gladiolus cunonius*
17. *Hesperantha latifolia*
18. *Lilium* hybrid -- collected from seed grown plants from seed given me by Sir Peter Smithers
19. *Nerine bowdenii*
20. *Onixotis stricta*
21. *Romulea flava*

>From PBS BX:

SEED:

22. *Streptocarpus wendlandii*
23. *Mervilla plumbea* (syn. *Scilla natalensis*)
24. *Albuca maxima*
25. *Albuca cooperi*
26. *Bulbine frutescens*

>From Cynthia Mueller:

27. Seed of *Rhodophiala bifida* red x pink, Central Texas strain

>From Linda Foulis:

28. Seed of *Hippeastrum* 'Green Goddess' x unknown *Hippeastrum* - dark red with almost black throat

BX 111 (Dec. 19, 2005)

>From Alberto Grossi:

1. Tubers of *Dioscorea bulbifera*
2. Seed of *Scadoxus puniceus*
3. Seed of *Tulbaghia violacea*
4. Seed of *Pancratium maritimum*
5. Seed of *Tricyrtis hirta*

>From Bob Werra:

6. Corms of *Moraea tripetala*
7. Corms of *Gladiolus watsoniae*
8. Cormlets of *Moraea ciliata*

SEED:

9. *Moraea macrocarpa*
10. *Moraea vegeta*
11. *Moraea fugax*, yellow
12. *Moraea bipartita*
13. *Moraea bellendenii*
14. *Cyanella lutea*
15. *Calochortus amabilis*
16. *Calochortus argillosus*
17. *Calochortus catalinae*
18. *Calochortus morophyllus*
19. *Calochortus superbus*
20. *Calochortus plumerae*
21. *Calochortus splendens*
22. *Calochortus uniflora*
23. *Calochortus venustus*
24. *Calochortus vestae*
25. *Calochortus weedii* var. *weedii*
26. *Romulea cruciata*
27. *Romulea diversiformis*
28. *Romulea grandiscapa*
29. *Romulea hirta*
30. *Romulea obscura* var. *obscura*
31. *Romulea tortuosa*
32. *Gladiolus caeruleus*
33. *Gladiolus carinatus*
34. *Gladiolus gracilis*
35. *Gladiolus huttonii*
36. *Gladiolus pappei*
37. *Gladiolus priorii*

BX 112 (Dec. 31, 2005)

>From Alberto Castillo:

SEED:

1. *Moraea polystachya*, tall, good form
2. *Romulea hirta*
3. *Narcissus triandrus pallidulus*(?)
4. *Narcissus rupicola*
5. *Tulipa turkestanica*
6. *Scilla autumnalis*
7. *Zephyranthes primulina*
8. *Romulea schlechteri*

>From Jane McGary:

9. Stem bulbils of *Calochortus vestae*

10. Seeds of *Paradisea lusitanica*
11. Seeds of *Scilla vincentii*

>From Bob Werra:

12. Seed of *Leucocoryne* sp. blue

>From Dennis Kramb:

SEED:

13. *Passiflora incarnata*
14. *Brugmansia hybrid*, white
15. *Iris foetidissima*, (Gladwyn iris) yellow flowers, red seeds

>From Bill Dijk:

SEED:

16. *Calydorea nuda*
17. *Herbertia amatum*
18. *Ferraria crispa*
19. *Scilla natalensis*
20. *Veltheimia bracteata*, pink shades
21. *Arum purpureospathum*
22. *Herbertia pulchella*
23. *Herbertia lahue* ssp. *caerulea*

>From Osmani Baullosa:

24. *Olsynium junceum*
25. *Leucocoryne* sp 3
26. *Zephyra elegans*
27. *Leucocoryne narcissoides* (syn. *Pabellonia incrassata*)
28. *Phycella scarlatina*
29. *Phycella ignea*
30. *Leucocoryne appendiculata*
31. *Solenomelus pedunculatum*
32. *Pasithea caerulea*
33. *Leucocoryne purpurea*
34. *Leucocoryne ixioides*
35. *Tecophilaea violiflora*
36. *Rhodophiala bagnoldii*
37. *Leucocoryne vittata*
38. *Rhodophiala phycelloides*
39. *Alstroemeria pulchra* ssp. *maxima*
40. *Leucocoryne coquimbensis*
41. *Oziriöe arida*
42. *Trichopetalum plumosum*
43. *Phycella australis*
44. *Tristagma bivalve*
45. *Rhodophiala laeta*

BX 113 (Jan. 12, 2006)

>From Joyce Miller:

CORMS/BULBS:

1. *Nerine filifolia*
2. *Moraea marlotthii*
3. *Moraea lurida*
4. *Moraea* sp. lavender-violet, with white spots
5. *Romulea tetragona*
6. *Romulea crocea*
7. *Romulea linaresii*

>From the PBS:

SEED:

8. *Babiana patula*
9. *Geissorhiza inflexa*
10. *Geissorhiza ovata*
11. *Gladiolus liliaceus*
12. *Gladiolus longicollis*
13. *Gladiolus abbreviatus*
14. *Moraea ramosissima*
15. *Moraea elegans*

>From Marie-Paule Opdenakker:

16. Rhizomes of *Hermodactylus tuberosa*
17. Bulbs of *Narcissus triandrus* 'Thalia'
18. Bulbs of *Tulipa* 'Bleu Aimable,' single, late-flowering

BX 114 (Jan. 21, 2006)

>From Joyce Miller:

BULBS:

1. *Ledebouria* sp.
2. *Ledebouria ovalifolia*
3. *Liatris scariosa*

>From Doug Westfall:

4. Seed of *Haemanthus albiflos*, wide-leafed cv
5. Seed of *Scadoxus membranaceus*

>From Rob Hamilton:

SEED

6. *Cyrtanthus breviflorus*
7. *Tecophilaea cyanocrocus* 'leichtlinii'
8. *Moraea spathulata*

BX 115 (Feb. 8, 2006)

>From John Ingram:

1. Seed of *Digitalis* 'Carillon'

>From Liz Waterman:

2. Small bulbs of *Stenomesson variegatum*, red/yellow
3. Rhizomes of *Oxalis triangularis*
4. Seed of yellow *Clivia* cultivar

BX 116 (Mar. 13, 2006)

>From Uli Urban:

1. Seed of *Pancratium canariense*

>From Hans Joschko:

2. Seed of *Zephyranthes citrina*
3. Seed of *Zephyranthes* sp., from seed wild-collected in Argentina

>From Jim Shields:

SMALL BULBS:

4. *Nerine gracilis*
5. *Nerine filifolia*
6. *Nerine angulata*
7. *Nerine platypetala*
8. *Nerine* (*filifolia* x *krigei*)
9. *Nerine filamentosa*
10. *Nerine bowdenii*

BX 117 (Apr. 11, 2006)

>From Lyn Makela:

BULBS/RHIZOMES:

1. *Achimenes erecta* 'Tiny Red'
2. *Allium hyalinum*
3. *Cyclamen rohlfsianum*
4. *Eucodonia hybrids*
5. *Gloxinia perennis*
6. *Gloxinia sylvatica*
7. *Hesperantha* sp., ex Basutoland
8. *Sinningia tubiflora*
9. *Zephyranthes citrina*
10. *Zephyranthes reginae* 'Valles yellow'
11. *Zephyranthes simpsonii*

>From Bill Dijk (via Mary Sue):

SEED:

12. *Geissorhiza radians*
13. *Herbertia amatorum* (syn. *Herbertia pulchella*)
14. *Herbertia lahue* ssp. *caerulea*
15. *Lapeirousia oreogena*
16. *Lapeirousia silenoides*
17. *Spiloxene linearis*
18. *Tecophilaea cyanocrocus* var. *leichtlinii*

>From Mary Sue Ittner and Dell Sherk:
19. Seed of *Cyrtanthus mackenii*, mixed colors

BX 118 (May 10, 2006)

>From Gary Meltzer:
1. Seed of a *Clivia* hybrid

>From Chuck Schwartz:
2. Corms of *Chasmanthe bicolor*
3. Cormels of *Hermodactylus tuberosa*
4. Seed of *Tulbaghia galpinii*

>From Fred Biasella:
5. Bulbs of *Hymenocallis 'Festalis'* Photo at
6. Bulblets of *Cyrtanthus obliquus*
7. Bulblets of *Hippeastrum 'Dutch Red'* x self

BX 119 (May 18, 2006)

>From Gary Meltzer:
1. Seed of a *Clivia* hybrid (repeat offering)

>From Mark Wilcox:
2. Scaly rhizomes of *Achimenes* hybrid, pink.

>From Steve Putman:
3. Seed of *Brunsvigia gregaria* from Bill Dijk

>From Joe Shaw:
4. Seed of *Hymenocallis lirosme*
5. Seed of large-flowered *H. lirosme*
6. Seed of *Crinum bulbispermum*, Jumbo-type seeds

BX 120 (Jun. 17 2006)

>From Rogan Roth:
1. Seed of *Cyrtanthus contractus*

>From Mark Mazer:
2. "Rhizomes" of *Geranium transversale*

>From Alberto Grossi:
SEEDS:
3. *Hermodactylus tuberosa*
4. *Iris lactea*
5. *Iris aurea*
6. *Cypella coelestis*

7. *Allium ursinum*
8. *Tulbaghia violacea*
9. *Colchicum autumnalis*

BX 121 (Jun. 30, 2006)

>From Mary Sue Ittner:
BULBS:
1. *Lachenalia reflexa*
2. *Oxalis callosa*
3. *Oxalis commutata*
4. *Oxalis flava*
5. *Oxalis hirta*
6. *Oxalis incarnata*
7. *Oxalis livida* Uli 76
8. *Oxalis polyphylla* var. *heptaphylla* MV6396
9. *Oxalis purpurea*
10. *Oxalis zeekoevleyensis*
11. *Romulea gigantea*
12. *Romulea minutiflora*
13. *Romulea rosea* (australis)

SEED:
14. *Fritillaria biflora*
15. *Moraea polystachya*
16. *Pelargonium incrassatum* (few)
17. *Phaedranassa* sp.
18. *Romulea bulbocodium*
19. *Sparaxis grandiflora violacea*
20. *Triteleia montana*

BX 122 (Jul. 17, 2006)

>From Jim Waddick:
1. *Crinum bulbispermum* - Seed from pale pink parents
2. *Crinum bulbispermum* - Seed from deep pink parents
3. *Crinum bulbispermum* - Seed from pure white parents

>From Don Osborne:
4. Seed of *Tritonia* sp., rose red/ pink
5. Cormlets of *Tritonia* sp., light pink, ex UC Botanical Garden, Berkeley
6. Cormlets of *Tritonia* sp., rose red/ pink, ex UC Botanical Garden, Berkeley
7. Small corms of *Wachendorfia* sp., ex UC Botanical Garden, Berkeley

>From Shirley Meneice:
8. Seed of *Zigadenus fremontii*

9. Cormlets of *Ixia* sp., most creamy white; a few deep maroon

>From Dell Sherk:

10. Bulblets of *Griffinia espiritensis espiritensis*

BX 123 (Jul. 25, 2006)

>From Chuck Schwartz:

1. Seed of *Scadoxus puniceus*

>From Mary Sue Ittner:

SEED:

1. *Cyclamen repandum*
2. *Cyrtanthus brachyscapus*
3. *Dietes iridioides*
4. *Erythronium californicum*
5. *Freesia laxa* (obtained as *F. grandiflora*)

BULBS:

6. *Ferraria* sp. (obtained from Telos as *F. schaeferi*)
7. *Freesia corymbosa*
8. *Fritillaria pudica*
9. *Herbertia lahue*
10. *Lachenalia bachmanii*
11. *Oxalis assinia*
12. *Oxalis flava*
13. *Oxalis hirta* (acquired from Telos as *O. namaquana* which it is not)
14. *Oxalis luteola* MV 6395
15. *Oxalis massoniana*
16. *Oxalis obtusa* - some unknown color
17. *Oxalis obtusa* - some peach
18. *Oxalis obtusa* - some yellow
19. *Oxalis obtusa* - some pink with gray leaves
20. *Oxalis obtusa* - MV5505a
21. *Oxalis pes-caprae*
22. *Oxalis purpurea* 'Garnet'

23. *Oxalis purpurea* 'Skar'
24. *Oxalis namaquana* (Uli 59)
25. *Oxalis semiloba*
26. *Oxalis* from Uli labeled 69 bluish gray palmate leaves
27. *Polyxena longituba*
28. *Romulea tabularis*
29. *Triteleia laxa*

>From Arnold Trachtenberg:

30. *Colchicum* sp. - A quantity of open pollinated seed. I have about twenty different *Colchicum* in flower at the same time.

31. Seeds of *Colchicum rhodopaeum*
32. Corms of *Colchicum umbrosum*
33. Corms of *Colchicum* 'Princess Astrid'

>From Al Sisk via Jim Shields:

34. Seeds of *Crinum bulbispermum*

BX 124 (Aug. 13, 2006)

>From Mary Sue Ittner:

BULBS:

1. Mixed bulbs - I'd expect there are *Gladiolus*, *Moraea*, *Oxalis*, *Ixia*, *Sparaxis*, *Calochortus*, *Brodiaea* or *Dichelostemma*, *Geissorhiza*, *Spiloxene*, *Allium*, *Tritonia* represented, but there could be others as well
2. *Ipheion uniflorum* -- White
3. *Muscari aucheri*
4. *Oxalis* MV 4674
5. *Oxalis* unknown, not *obtusa*. They look morelike *hirta-flava* types
6. *Spiloxene capensis*

SEED:

7. *Calochortus nitidus*
8. *Cyrtanthus brachyscyphus*
9. *Geissorhiza heterostyla*
10. *Lachenalia mathewsii*
11. *Lachenalia rosea*
12. *Romulea diversiformis*
13. *Triteleia hendersonii*
14. *Scilla peruviana* (syn. *Oncostema peruviana*)
15. *Veltheimia bracteata*

>From Arnold Trachtenberg:

16. Bulbs of *Colchicum pannonicum*
17. Seed of *Erythronium californicum* 'White Beauty'

>From Uli Urban:

18. Seed of *Hippeastrum* sp. ex Brazil, x self, orange-red flowers and a yellow throat, the petals were lightly twisted.

BX 125 (Aug. 25, 2006)

>From Mary Sue Ittner:

SEEDS:

1. *Calochortus* Mariposa mixed (*argillosus*, *catalinae*, *luteus*, *superbus*, *vestae* likely candidates)
2. *Gladiolous carneus*
3. *Gladiolus geardii*
4. *Lachenalia contaminata*
5. *Pasithea caerulea*
6. *Watsonia coccinea*

BULBS:

7. *Ixia* sp. (hybrid or *Ixia polystachya*)
8. *Muscari botryoides*
9. *Narcissus* species
10. *Romulea bulbocodium* (ones originally from Jane called *nivalis*)
11. *Tritonia pallida* (open pollinated)
12. *Tritonia* sp. (no doubt hybrid)

>From Jim Fisher:

13. Bulbs and bulblets of *Oxalis hirta*

>From Lynn Makela:

BULB(lets)/Corm(lets):

14. *Nothoscordum filipponei* (syn. *Ipheion sellowianum*)
15. *Oxalis melanosticta* 'Ken Aslet'

17. *Oxalis brasiliensis*

SEED:

18. *Habranthus gracilifolius* (syn. *H. estensis*)
19. *Zephyranthes primulina*
20. *Zephyranthes reginae*
21. *Zephyranthes macrosiphon*
22. *Zephyranthes commeroniana*

BX 126 (Sept. 12, 2006)

>From an unknown donor:

1. Seed of *Lachenalia campanulata*

>From Mary Sue Ittner:

2. Seed of *Hesperantha latifolia*

>From Rogan Roth:

3. Seed of *Hippeastrum calyptratum*
4. Seed of *Lachenalia pusilla*

>From Chuck Powell:

5. Seed of *Drosera peltata*

>From Angela Offer:

6. Seed of *Hosta ventricosa*
7. Seed of *Mirabilis jalapa*

>From Alberto Grossi:

8. Small corms of *Freesia alba* ex South African seed
9. Seed of *Iris tectorum*
10. Seed of *Canna indica*
11. Seed of *Mirabilis jalapa*, white

>From Marcelle Sheppard via Joe Shaw:

12. Seedlings of unknown *Crinum* cultivars
13. Seeds of *Crinum pedunculatum*, open pollinated (small supply)

BX 127 (Sept. 21, 2006)

>From Angelo Porcelli:

SEED:

1. *Crocus thomasii*
2. *Gladiolus tristis*
3. *Colchicum cupanii*
4. *Iris bicapitata*
5. *Iris sicula*
6. *Ferraria crispa*
7. *Romulea bulbicodium*

>From Fred Biasella:

8. Good-sized offsets of *Allium giganteum*

>From Rogan Roth:

9. Cormlets of *Bessera elegans*

>From Dell Sherk:

10. Seed of *Cyclamen persicum* (florist's cultivar), red, selfed
11. Seed of *Zephyranthes* mixed (communal pots containing at least 30 species and hybrids, open pollinated)
12. Seed of *Scadoxus puniceus*

BX 128 (Oct. 18, 2006)

>From Jim Waddick:

1. Seed of *Anthericum* sp. (came from Panayoti Kelaidis of the Denver Botanic Garden simply as "sp.")
2. Seed of *Manfreda virginiana*

>From Lee Poulsen:

3. Seed of *Zephyranthes katherinae*
4. Seed of *Calostemma purpurea*

>From Linda Foulis:

5. Seed of white *Hippeastrum* hybrid, most likely 'Intokazi'
6. Seed of *Bulbine* sp., maybe *B. semibarbata*?

>From Roy Sachs:

7. Seed of *Amaryllis belladonna*.

>From Dell Sherk:

Seed for these came originally from Mauro Peixoto.

8. Seedling bulbs of *Hippeastrum morelianum* x *glaucescens* (few)
9. Seedling bulbs of various primary hybrid *Hippeastrum* crosses involving *H. striatum*, *aulicum*, *morelianum*, *calyptratum*, and other species

BX 129 (Oct. 28, 2006)

>From anonymous donors:

1. Seed of *Pinellia cordata* (Araceae)
2. Small corms of *Watsonia humilis*
3. Small corms of *Gladiolus blandus*
4. Seed of *Gladiolus virescens*
5. Seed of *Gladiolus abbreviatus*
6. Seed of *Gladiolus longicollis*
7. Seed of *Gladiolus liliaceus*
8. Seed of *Moraea spathulata*

>From Doug Westfall:

9. Seed of *Veltheimia bracteata*, mixed color parentage
10. Seed of *Haemanthus humilis humilis*, pink, may be the "giant" strain

>From Michael Homick and Paul Machado:

11. Seed of x*Amarygia*; open pollinated; white, pink, and rose colored parents, originally from Les Hannibal

BX 130 (Nov. 7, 2006)

>From Joyce Miller:

1. Bulbs of *Ledebouria socialis*
2. Cormlets of *Moraea macrocarpa*
3. Seed of *Moraea macrocarpa*??

>From Mark Wilcox:

4. Seed of *Habranthus gracilifolius*
5. Seed of *Lilium formosanum* var. *pricei*
6. Seed of *Rhodophiala bifida*

>From Arnold Trachtenberg:

7. Bulblets of *Nerine* hybrid 'Salmon Supreme'
8. Small bulbs of *Nerine* hybrid 'Miss Moore' x 'Carmencita'

>From Alberto Grossi:

9. Seeds of *Scadoxus* sp. - It has white bracts but it looks like *punicus* in the leaves.

>From Roy Herold:

SEED:

10. *Pinellia cordata* 'Yamazaki'
11. *Massonia* cf. *pustulata*. Originally received as *M. depressa* from the NARGS seedex. This form is larger and more robust than a *M. pustulata* from Richard Douth
12. *Albuca* cf. *spiralis*, from Steven Hammer. Suitably twisty.

BX 131 (Nov. 15, 2006)

>From Jim Waddick:

1. Seed of *Lycoris* hybrids: from *L. chinensis*, *L. longituba* and *L. sprengeri*

>From Hans Joschko:

SEED:

2. *Pancratium maritimum*
3. *Urginea maritima*
4. *Leucojum roseum*

24. *Moraea ciliata*
25. Cormlets of *Moraea ciliata*

BX 137 (Jan. 17, 2007)

>From Marguerite English:

1. Bulbs of *Zephyranthes* 'Labuffa rosea' "Lily Pies", ex Yucca Do Nursery
2. Bulbs of *Zephyranthes puertoricensis*

>From Doug Westfall:

3. Seed of *Scadoxus membranaceus*

BX 138 (Jan. 23, 2007)

>From Stephen Putman:

1. Seed of *Hippeastrum reticulatum striatum* "the real thing NOT 'Mrs. Garfield'"
2. Small bulbs of *Hippeastrum* sp., miniature, 8" scape, blooms: 3"x4", two per scape. Looks like a small version of *H. striatum rutilum*. Is said to come from Sao Paulo state.
3. Small bulbs of *Hippeastrum puniceum*
4. Blooming size bulbs of *Zephyranthes candida*

BX 139 (Feb. 2, 2007)

>From Alberto Castillo:

(W = winter-growing; S = summer-growing; SE = summer-growing, evergreen)

1. *Hymenocallis maximilianii* seeds. Just harvested. Most germinated. (S)
2. *Tropaeolum pentaphyllum* seeds. (W)
3. *Zephyranthes primulina* seeds. Just harvested. (S)
4. *Allium canadense*, umbel bulbils. A selected form, look lacquered, a nice maroon. (W)
5. *Gladiolus illyricus* seeds, not many. Just harvested. (W)
6. *Cooperia morrisclintii* seeds, a few. Just harvested. (S)
7. *Sparaxis bulbifera* seeds. Fresh. (W)
8. *Ornithogalum longibracteatum* (*caudatum*) seed. Just harvested, from wild collected plants. (SE)
9. *Albuca nelsoni* seed. Fresh, from wild collected parents. (SE)
10. *Albuca juncifolia* bulbs, it is self fertile and produces good seed, therefore one can make it with a single bulb (W)
11. *Ferraria uncinata* corms, just finishing dormancy (i.e. ready to sprout) (W)

BX 140 (Feb. 7, 2007)

>From Alberto Castillo:

(W = winter-growing; S = summer-growing; SE = summer-growing, evergreen)

1. *Cypella herberti* seeds, just harvested, selected form, extremely robust, this is something special (W)
2. *Habranthus martinezi* seed, just harvested, from the original collection in the seashore in S. Brazil (W)
3. *Romulea hirta* seeds, few, fresh (W)
4. *Scilla greiheri* seeds, few, fresh (W)
5. *Manfreda rubescens* seed, fresh (S)
6. *Echeandia* sp. Mexico, seed (few), fresh, light orange flowers (S)
7. *Moraea ochroleuca* seeds, fresh, a very fine deep salmon form (S?)
8. *Ixia pumilio* seed, fresh (W)
9. *Moraea huttonii* seeds, I have found this not easy to germinate, perhaps my climate too warm (SE)
10. *Ferraria crispa* seed, fresh, may be a dozen different forms (W)

11. *Neopatersonia uitenhagensis* seed, fresh (W)
12. *Canna tuerckheimii* seeds, just harvested, A miniature species (usually less than 2 ft. tall) (S)

And seeds from Alberto that were leftover from BX 139:

13. *Hymenocallis maximilianii* seeds (very few) Most germinated. (S)
14. *Zephyranthes primulina* seeds. Just harvested (S)
15. *Allium canadense*, umbel bulbils (few). A superb selected form in which they look lacquered, a nice maroon (W)
16. *Sparaxis bulbifera* seeds (few) (W)
17. *Ornithogalum longibracteatum* (*caudatum*) seed. Just harvested, from wild collected plants (SE)
18. *Tropaeolum pentaphyllum* seed (few). Fresh. Should be sown at once (W)
19. *Albuca nelsoni* seed. Fresh, from wild collected parents (SE)
20. *Albuca juncifolia* bulbs (few), it is self fertile and produces good seed, therefore one can make it with a single bulb (W)

>From Liz Waterman:

21. Bulbs of *Bowiea volubilis* ("climbing onion")

BX 141 (Mar. 20, 2007)

>From Alberto Grossi:

1. Bulbils of *Dioscorea bulbifera*
2. Bulbils of *Anredera cordifolia*

>From Lynn Makela:

3. Tubers of *Sinningia bulbosa*
4. Tubers of *Sinningia tubiflora*

6. Tubers of *Sinningia aghensis*
7. Rhizomes of *Eucodonia* hybrids
8. Rhizomes of *Achimenes* hybrid 'Yellow Beauty'
9. Rhizomes of *Achimenes* hyb 'Purple King' (Hardy to Z 8)
10. Small offsets of *Hippeastrum petiolatum*

BX 142 (Apr. 18, 2007)

>From Alberto Castillo:

(W = winter growing; S = summer growing)

SEED

1. *Zephyranthes fosterii* (S)
2. *Zephyranthes verecunda*, pink, rose (S)
3. *Zephyranthes primulina* (S)
4. *Habranthus martinezii* (W)
5. *Cooperia smallii* (W)
6. *Rhodophiala granatiflora*
7. *Moraea huttonii* (S)
8. *Tritonia deusta* (W)
9. *Dioscorea* sp. (bulbils) (S)

>From Lee Poulsen:

10. Small bulbs of *Scilla natalensis*
(*Merwillia natalensis*)

>From Rob Hamilton and Jim Lykos:

SEED:

11. *Calostemma purpureum*, Mannum, South Australia
12. *Calostemma purpureum*, Berri, South Australia
13. *Calostemma purpureum*, Orroroo, South Australia
14. *Crinum luteolum*, Pichi Richi Pass, South Australia
15. *Crinum* aff. *luteolum*, "Desert Crinum" Andamooka, South Australia
16. *Crinum* aff. *luteolum*, "Desert Crinum" Macleay, Oakden Hills, South Australia

BX 143 (May 13, 2007)

>From Dennis Szeszko:

1. Seed of *Manfreda* sp. wild-collected at 1600 m in Sierra de Nanchititla State Park, Mexico. Could be *Manfreda nanchititlensis* which is reported from that locality

>From Alberto Grossi:

2. Seed of *Hedychium gardnerianum*

>From Jay Yourch:

3. Seed of *Crinum erubescens* from Southern Brazil sent by Tarcisio Eduardo Raduenz. Sr. Raduenz says these plants are somewhat different

from typical *C. erubescens*. They were originally called *C. salsum*, but have now been lumped in under the broader description of *C. erubescens*.

4. Seed of *Hymenocallis* sp. from St. Maartens

>From Dell Sherk:

5. Offsets of *Crinum* 'Ellen Bosanquet.' Dark pink/red
6. Offsets of *Crinum* 'Summer Nocturne.' Pinkish white
7. Offsets of *Crinum* sp. Label is lost
8. Offsets of *Crinum* 'J. C. Harvey.' Pink
9. Offsets of *Cyrtanthus elatus*, red
10. Seedling bulbs of *Hippeastrum* (*reginae* x *puniceum*) x self
11. Seedling bulbs of *Hippeastrum striatum* 'Cioanorte'
12. Seedling bulbs of *Hippeastrum morelianum*
13. Small bulbs of *Ledebouria zebrina*

BX 144 (May 30, 2007)

>From Joe Shaw (with moral support from Marcelle Sheppard):

1. *Hippeastrum* seeds--mixed colors "Dutch Hybrids" or "Florists' Amaryllis" types, open pollinated
2. The "Best Dark Jumbo" was in a garden full of many Jumbos and other *C. bulbispermum* hybrids
3. The "Dark Rose Jumbo" was in a garden with fewer other plants in bloom at the same time (few whites nearby)
4. *Crinum* seeds: Jumbos opening white or very pale-pink and turning darker on day 2 x open pollinated
5. *Crinum* seeds: White Prince x open pollinated (White Prince is a very fine non-Jumbo *C. bulbispermum* hybrid)
6. *Crinum* seeds: Totally mixed Jumbos (all colors except dark rose) x open pollinated

>From Richard Wagner:

6. Seed of *Babiana rubrocyanea*

>From Judy Glattstein:

7. Corms of *Watsonia*, orange
8. Corms of *Watsonia*, pink
9. Corms of *Watsonia* 'Flamboyant'
10. Corms of *Watsonia* 'Snow Queen'
11. Corms of *Watsonia humilis*
12. Corms of *Watsonia coccinea*
13. Tubers of *Sauromatum guttatum*
14. Tubers of *Amorphophallus* sp.

>From Liz Waterman:

15. Small offset bulbs of *Cyrtanthus elatus*
x *C. montanus*
16. Seed of *Hippeastrum papilio* x self
17. Seed of *Hippeastrum* 'Clown' x *H. papilio*
18. Seed of *Chasmanthe bicolor*

BX 145 (Jun. 7, 2007)

>From Richard Wagner:

1. Seed of *Adenium obesum* from a red-flowered cross
2. Seed of *Adenia glauca*

>From Alberto Grossi:

3. Seed of *Crinum campanulatum* (few)
4. Seed of *Canna indica* (few)

>From Al Sisk:

5. Seed of *Crinum bulbispermum* 'Album'
6. One-year seedlings of *Crinum bulbispermum* 'Album'

>From Pamela Slate:

7. Seed of *Allium schubertii*

>From Lynn Makela:

8. Rhizomes of *Gloxinia sylvatica*
9. Cormlets of *Freesia (Anomatheca) laxa*, blue
10. Bulblets of *Oxalis imbricata*
11. Bulblets of *Oxalis obtusa*, rose
12. Cormlets of *Ixia pumilo*
13. Cormlets of *Moraea setifolia*
14. Corms of *Hesperantha baurii* (few)
15. Seed of *Zephyranthes primulina*
16. Seed of *Zephyranthes reginae* 'Valles yellow'

BX 146 (Jun. 12, 2007)

>From Mary Sue Ittner and Alan Horstmann:

1. Already sprouting seed of *Brunsvigia orientalis*
2. Already sprouting seed of *Strumaria truncata*
3. Small Oxalis bulbs originally received from Uli Urban, sp. L96/42, probably *Oxalis magnifica*, summer growing.
4. Small corms of *Cyanella lutea*

>From Eugene Zielinski:

5. Seed of *Zephyranthes atamasco*, collected from a colony in South Carolina.

>From Cynthia Mueller:

6. Seed of *Hippeastrum glaucescens*, from Yucca Do, probably from Mauro Peixoto
7. Seed of "Giant Rain Lily," from several geographical locations in Central Texas.

>From an anonymous donor:

8. Corms of *Alocasia* 'Hilo Beauty' which is probably an *Anthurium* not an *Alocasia*
9. Seed of *Clivia*, it looks like a scarlet *Clivia x cyrtanthiflora*

>From Joe Shaw:

10. *Crinum* seeds: Totally mixed Jumbos (all colors except dark rose) x open pollinated.

And still available from BX 145

11. Seed of *Adenium obesum*, from a red-flowered cross, a caudiciform member of the Apocynaceae
12. Seed of *Adenia glauca*, a caudiciform member of the Passifloraceae
13. Seed of *Canna indica*
14. Seed of *Crinum bulbispermum* 'Album'
15. Seed of *Allium schubertii*

BX 147 (Jun. 30, 2007)

>From Paul Tyerman:

1. Seed of *Nerine undulata* - originally from seed from Silverhill Seeds, RSA
2. Seed of *Nerine flexuosa* alba

>From Cathy Craig:

3. Good sized bulbs of *Nerine bowdenii* originally from Quail Botanical Garden

>From Mary Sue Ittner:

CORMS/BULBS

4. *Dichelostemma congestum*
5. Bulbs of *Oxalis obtusa*
6. *Phaedranassa* sp. a few big blooming size bulbs

SEED:

7. *Albuca spiralis*
8. *Calochortus uniflorus* - beautifully marked form
9. *Chasmanthe bicolor*
10. *Cyclamen cilicium*
11. *Cyclamen coum*
12. *Cyclamen hederifolium*
13. *Cyrtanthus brachyscyphus*
14. *Erythronium helenae*
15. *Ferraria crispa*
16. *Gladiolus huttoni* hybrids, probably with *G. tristis*
17. *Lachenalia aloides* var. *aurea*
18. *Massonia echinata*
19. *Moraea atropunctata*
20. *Moraea vegeta*
21. *Phaedranassa* sp.
22. *Polyxena longituba*
23. *Triteleia clementina*, seeds of this originally came from Dylan Hannon
24. *Triteleia crocea*
25. *Triteleia ixioides* ssp. *anilina*
26. *Tritonia dubia*

BX 148 (Jul. 5, 2007)

>From Jim Waddick:

1. Seed of *Crinum macowanii* (few)
2. Seed of *Hippeastrum* x *johnsonii*, bright red with central white star pattern. Should be selfed, but there was a Hipp. 'Apple Blossom' seedling blooming across the yard

>From Alberto Grossi:

SEEDS:

19. *Romulea monticola*
20. *Triteleia dudleyi*
21. Bulbs of *Tulipa turkestanica*

>From Dennis Szeszko:

SEED (some QUITE RARE!):

22. *Milla magnifica* - largest and rarest species of this genus. Wild-collected in Mexico State near the border with Guerrero. Grows in tropical deciduous jungle with a very pronounced dry

- period.
23. *Tigridia* sp. - A tall-growing species collected at around 6000 feet in Mexico State, could be *T. meleagris*, but the flowers were not seen.
 24. *Tigridia mexicana* - Seed harvested from wild-collected plants found in Mexico State.
 25. *Tigridia* sp. - A short-growing species collected near Bejucos in Mexico State. Found growing in the shade of *Crescentia alata* trees in a very hot environment with an extremely pronounced dry period. Grows in clay soils that flood during the rainy season but bake in the dry season.
 26. *Tigridia* aff. *mortonii* - I think that it could be this species based on where it was found. Found at the type locality for the species in Mexico State growing directly on rock faces. Culture is similar to *Worsleya*, but with more shade. If this plant is what I think that it is, it will be the first time it has been collected since 1935. Flowers were described as RED by the original collector....this is the only member of *Tigridia* with red flowers. I will confirm the identity next summer when it flowers.
 27. *Rhodochiton* sp. - I think that this is a species of *Rhodochiton* (not *R. atrosanguineus*), but I am not 100% sure of the identity. It has a root structure similar to *Dahlia* and grows as a lithophyte on wet cliffs in Mexico state where it was collected. Flowers are large, reddish-purple, showy and pendulous.
 28. Irid - A species of pleated-leaf irid that does not grow more than 12 inches with pointed seed capsules. Found in Mexico State growing near the city of Tejupilco at around 4000 feet in tropical deciduous jungle.
 29. *Penstemon* sp. - has beautiful flowers that are an amazing bright coral-pink color with a fuzzy, yellow beard at the base of the lip. It was collected in Texcoco district in Mexico State and will grow well with other summer-growing bulbs in cool climates. Grows

with *Tigridia vanhouttei* and *Calochortus barbatus*.

BX 163 (Jan. 3, 2008)

>From Jerry Flintoff:

SEED:

1. *Fritillaria raddeana*

4. *Dierama dracomontanum*, "Drakensberg Harebell", to 0.8m, linear lvs, pendulous bell-shaped rose pink to red fl borne on nodding stalks Su. Sow Sp. Zone 7.
5. *Dierama reynoldsii*, 1.5m, beautiful pendulous wine-red fl with white bracts Su. Sow Sp. Zone 7.
6. *Diets iridioides*, 0.6m, evergreen, big white fl with blue styles Sp-Au, shade. Sow Sp. Zone 9.
7. *Gladiolus gueinzii*, 50cm, thick fleshy vs, small pink/mauve/purplish fl marked with red Su, dunes & sandy beaches, rain all yr. Sow Au/Sp.

8. *Gladiolus marlothii*, to 1m, very beautiful faintly scented minutely speckled mauve fl Sp, dry, rarely seen. Sow Au.
9. *Gladiolus ochroleucus*, 45-75cm, often evergreen, Su-growing, white/cream/yellow/pink fl Su-Au. Sow Sp. Zone 7.
10. *Gladiolus oppositiflorus* ssp. *salmoneus*, 0.8-1.5m, Su-growing, very beautiful large salmon-pink fl Su-Au, cliff dweller. Sow Sp. Zone 6.
11. *Gladiolus venosomaculatus*, to 1m, Su-growing, linear lvs, pink petals speckled with maroon. Sow Sp. Zone 10.
12. *Lapeirousia sandersonii*, 2 narrow linear long leaves, Su-growing, numerous mauve fl in a much-branched inflorescence Su. Sow Sp. Zone 8.
13. *Littonia modesta*, 1m, Su-growing, decid, pendulous bell-shaped yellow or orange fl Su, sun or s/shade. Sow Sp. Zone 8.
14. *Moraea alticola*, to 1m, Su-growing, solitary leaves, large pale yellow fl with darker yellow nectar guides Sp-Au, wet/water. Sow Sp. Zone 6.
15. *Ornithogalum maculatum*, 8-50cm, orange or yellow fl, outer petals with dark tips Sp. Sow Au. Seeds of a dark orange form available.
16. *Ornithogalum pulchrum*, robust handsome plant, Su growing, lvs spotty at base, 1m fl spike with green and white fl, very arid area. Sow Sp. Zone 10.
17. *Watsonia angusta*, 1-2m, Wi/Su rain, scarlet fl Su, copious nectar, damp areas. Sow Sp/Au. Zone 8.
18. *Watsonia strubeniae*, 0.6-1m, Su growing, 4-5 lvs with heavily thickened margins, long spikes of small delicate pale pink fl Su-Au, grassland. Sow Sp. Zone 8.
19. *Xerophyta retinervis*, "Black-stick lily", to 1.8m, robust rough black stems, grasslike leaves, many deep to pale mauve/white scented fl Sp. Sow Sp. Zone 8.
20. *Zantedeschia albomaculata*, 'Helen O'Connor,' Attractive spotted lvs, coral pink fl. Sow Sp. Zone 8.

14. *Lachenalia pendula*
15. *Ipheion uniflorum* 'Jessie'
16. Seedlings of *Ornithogalum* sp.
17. Small tubers of *Zantedeschia aethiopica*, very large form
18. Small tubers of *Zantedeschia aethiopica* var. *gigantea*
19. Small tubers of *Zantedeschia aethiopica*, speckled, nice white-spotted
20. Bulbs of *Oxalis* U63
21. *Lachenalia*, pink

SEED:

22. *Zantedeschia aethiopica* 'Holford'
23. *Zantedeschia odorata*
24. *Tulipa turkestanica*
25. *Hippeastrum* sp., ex Brazil

BX 184 (Sept. 22, 2008)

>From Uli Urban:

1. Seed of *Dracunculus vulgaris*

2. Small tubers of *Dracunculus muscivorum*
3. Small bulbs of *Ornithogalum maculatum*
4. Seed of *Lilium pumilum*

>From Jim Shields:

5. Seed of *Haemanthus humilis humilis*
6. Seed of *Haemanthus barkerae*
7. Tubers of *Alstroemeria psittacina*

>From Mary Sue Ittner:

SEED:

8. *Allium peninsulare*
9. *Cyclamen elegans*
10. *Brimeura amethystina*
11. *Watsonia coccinea*
12. *Cyclamen coum* ssp *coum albissimus*
13. *Wurmbea (Onixotis) stricta*
14. *Nothoscordum* sp. ex Chile
15. *Allium falcifolium*
16. *Crocus goulimyi leucantha*
17. *Romulea diversiformis*
18. *Salvia patens*
19. *Geissorhiza radiata*
20. *Gladiolus grandiflorus*
21. *Babiana nana angustifolia*
22. *Romulea citrina*
23. *Massonia depressa*
24. *Delphinium cardinale*, yellow
25. *Nerine* sp.

BX 185 (Sept. 29, 2008)

>From Mary Sue Ittner:

CORMS:

1. *Dichelostemma multiflorum* cormlets
2. *Ferraria divaricata*
3. *Freesia elimensis*
4. *Moraea sisyrinchium*
5. *Romulea monticola* cormlets
6. *Tritonia flabellifolia* cormlets

>From Ton de Waard:

7. Seeds of *Arum maculatum*
8. Seeds of *Dierama pendulum*, dark pink

>From Lynn Makela:

BULBS:

9. *Androcymbium* sp. seeds from AGS
10. *Gladiolus dalenii*, good color
11. *Habranthus brachyandrus*

12. *Habranthus magnoi*, white, long stem
13. *Oxalis purpurea* 'Garnet'

SEED:

14. *Babiana vanzylliae*
15. *Freesia grandiflora*, red
16. *Habranthus brachyandrus* 'Cheery Pink'
17. *Habranthus robustus* ex Brazil
18. *Hippeastrum gracilis* 'Fiery Bouquet'
19. *Zephyranthes katherinae* lutea - has some red on tips of petals
20. *Zephyranthes katherinae* rubra
21. *Zephyranthes macrosiphon*
22. *Zephyranthes mesochloa*
23. *Zephyranthes reginae* 'Valles Yellow'
24. *Zephyranthes* sp. Ex Jacala, Mexico - looks like *Z. katherinae* rubra but smaller

BX 186 (Oct. 7, 2008)

>From Kathleen Sayce:

1. Bulbs of *Hyacinthoides* x *massartiana*
2. Seeds of *Sisyrinchium californicum*

>From Roy Herold:

SEEDS:

3. *Paeonia obovata alba* - originally from the garden of Bob and Joan Means
4. *Paeonia japonica*
5. *Paeonia obovata*
6. *Paeonia obovata*-ish -- smaller white flowers, taller, probably another species.
7. *Trillium luteum*
8. *Trillium cuneatum* ex 'Eco Dappled Lemon' from Don Jacobs. These seeds should be from one of the yellow flowered seedlings.
9. *Arisaema amurense*
10. *Arisaema flavum*
11. *Arisaema flavum* 'Giant form' Looks a lot like a polyploid to me
12. *Arisaema triphyllum*, ex the wild population in North Reading, MA.
13. *Lilium canadense* Yellow form, originally from the American Horticultural Society seedex
14. *Arum italicum* 'Pictum' form originally from Weir Meadow Nursery.

15. *Ornithogalum fimbrimarginatum*
Piketberg from hand pollinations,
germinate quickly. Ex Steve Hammer.

BX 187 (Oct. 12, 2008)

>From Lee Poulsen:

1. Bulbs of *Nothoscordum inodorum*

SEED:

2. *Herbertia lahue* (syn. *H. amoena*)
3. *Herbertia lahue*
4. *Trichopetalum plumosum* (few)
5. *Hesperantha latifolia* (few)
6. *Hesperantha pauciflora* (few)
7. *Hesperantha cuculata*
8. *Albuca angolensis*
9. Bulbils of *Lilium brownii*
10. "Bulbils" of *Globba cathcartii*

BX 188 (Oct. 20, 2008)

>From Jim Waddick:

1. Plants of *Euphorbia decaryi* 'Nova'
2. Small plants of *Crinum* hybrid
'Hannibal's Dwarf' (*C. moorei* x *C. americanum*)

8. *Habranthus tubispathus*

9. *Ledebouria* sp., ex Cape Province, long leaves
10. *Ledebouria* sp., ex Pondoland
11. *Ledebouria revoluta*

>From Dell Sherk:

12. Very few seeds of *Cryptostephanus vansonii*

BX 197 (Feb. 13, 2009)

>From Jim Waddick:

1. Bulbs of *Zephyranthes candida*
2. Seed of *Lilium formosanum*, tall form
3. Seed of *Lilium leichtlinii*, fertile diploid

>From David Ehrlich:

4. Seed of *Hesperoxiphion peruvianum*
5. Bulbs of *Zantedeschia rehmannii*

BX 198 (Feb. 23, 2009)

>From an anonymous donor:

1. Seed of *Clivia* hybrid, x-cyrtanthiflora-type, open-pollinated
2. Seed of *Gloriosa superba*

>From Gregg De Chirico:

3. Tubers (F2) of *Begonia boliviensis* from seeds collected in Calilegua, Argentina

>From Dave Boucher:

4. Seeds of *Amorphophallus muelleri*
5. Seeds of *Habranthus itaobinus*

>From Dell Sherk:

6. Flowering-size bulbs of *Massonia depressa*
7. Small bulbs of *Brunsvigia gregaria*, from seeds ex Cameron and Rhoda McMasters
8. Small bulbs of *Hippeastrum aulicum*
9. Offset bulbs of *Haemanthus pauculifolius*, originally from Diana Chapman

And some items from previous BX donations that are still available:

10. Seed of *Boophane disticha*
11. Seed of *Scadoxus membranaceus*
12. Bulbs of *Zephyranthes candida*

BX 199 (Mar. 19, 2009)

>From Nhu Nguyen:

1. Seed of *Tigridia pavonia*

>From Fred Thorne:

2. Small bulbs of *Eucrosia bicolor*

>From Roy Herold:

Rhizomes:

Tricyrtis macranthopsis (aka *T. macrantha* ssp *macranthopsis*)

3. Form #1 - Stems are about three feet long. Originally from ARGS seed, 1992, from Hideo Yamazaki in Japan
4. Form #2 - From Darrell Probst, who probably got it in Japan. Different from #1
5. *Tricyrtis perfoliata*- Blooms about a week earlier than *macranthopsis*, from Mr. Yamazaki, 1992.

SEEDS:

6. *Arisaema angustatum* 'Best Tophat' ex CPC 10-10-97-3 collected by Darrell Probst in Korea.

BX 200 (Mar. 25, 2009)

>From PBS:

SEEDS:

(sow immediately)

1. *Crinum macowanii*
2. *Haemanthus humilis*

(sow in spring)

3. *Gladiolus hollandii*, To 1m, Su-growing, several long wide leaves, pale pink fl minutely dotted with dark blackish-grey speckling Su-Au. Zone 10.
4. *Gladiolus longicollis*, 40-80cm, Su-growing, 2 clasping leaves, single fl spike white-cream or yellow fl Su, night scented. Zone 7.
5. *Hesperantha coccinea* (old genus *Schizostylis*), "Scarlet river lily", 60cm, Su-growing, large star shaped red fl Su, cut fl, sun, well-dr moist soil. Zone 7.
6. *Lapeirousia sandersonii*, 2 narrow linear long leaves, Su-growing, numerous mauve fl in a much-branched inflorescence Su. Zone 8.

7. *Moraea alticola*, To 1m, Su-growing, solitary leaves, large pale yellow fl with darker yellow nectar guides Sp-Au, wet/water. Zone 6.
8. *Schizocarphus nervosus*, Erect leaves, Su-growing, leaf veins raised, white fl on long stalks Su. Zone 7.
9. *Watsonia confusa*, 0.5-1.5m, Su-growing, 3-4 pale to bluish-green lvs with thickened margins, pink fl Su, wet/water. Zone 8.
10. *Watsonia fourcadei*, 1-2m, evergreen, pink/orange/red fl Su, easy. Sow Sp/Au. Zone 8.
